

Purchasing

Purchase order proposal for supplier
Assessment of suppliers

CRM

Management of sales activities (work plan, appointment management, calls, tasks, projects, etc.)
Management of customer support (management of customer claims, management of interventions, etc.)

“Software innovation, like almost every other kind of innovation, requires the ability to collaborate and share ideas with other people, and to sit down and talk with customers and get their feedback and understand their needs”

- Bill Gates

Datamation Systems has been successfully providing business solutions since 1986.
